

121-01 CAMPUS LAW ENFORCEMENT AND REPORTING CRIMINAL ACTIONS AND EMERGENCIES—PROCEDURE

1. PURPOSE

The purpose of this procedure is to ensure reporting of criminal activities and other emergencies to College Security Authorities and/or local law enforcement agencies.

2. PROCEDURE

Campus Security is responsible for establishing a process through which information related to criminal activity and other emergencies may be reported to any Campus Security Authority, details of which are included in the associated Procedural Guidelines.

1. Although all persons are strongly encouraged to report such activity, reporting by employees is required.
2. Information reported to Campus Security will be maintained and disseminated as requested, but no less than yearly in the Annual Campus Crime Report, as long as release of that information does not jeopardize an investigation or confidentiality of a victim.
3. Timely warnings with information about an incident that poses an immediate threat to the safety of persons present on a campus will be issued immediately.
4. Student Support Services, in cooperation with the Security Supervisor and the Human Resources Director, will coordinate crime prevention presentations and distribute brochures as needed to educate the College community in techniques of preventing crime.
