

COCONINO COMMUNITY COLLEGE

COURSE OUTLINE

Prepared by: Stephen L. West, MBA
Revised by: Dennis M Connell MS

April 30, 1992
September 2002

A. Identification:

1. Subject Area: Administration of Justice
2. Course Number: AJS 170
3. Course Title: Security Issues in Private Industry
4. Credit Hrs: 3
5. Catalog Description:

A historical overview of the development and evolution of law enforcement and its developing relationship and dependence on the need for private asset protection. Students will assess current prevention technology, its development and history, and future direction and application. The class will further examine the roles of law enforcement and private security officers as well as the inherent differences. Legal limitations and provisions, public/private security agency(s) and liability issues in the industry will be analyzed. Three lecture.

B. Course Goals:

To provide the students with the necessary skills to prepare them for understanding the contemporary environment of security and loss control within the United States and the sub-systems which directly comprise the integrated security systems within the United States and emphasize the functional areas of security and loss control applications as preparation for: problem-solving, communication, reasoning, and reporting. Computer worksheet applications may be utilized.

C. Course Outcomes:

Students Will:

1. Apply and show an understanding of criminal justice vocabulary
2. Explain the structure of security and loss control
3. Articulate how the security industry develops systems and tactics for security and loss prevention
4. Describe the management and organizational processes which affect security and loss control/prevention concerns
5. Identify the impact which the choice of a security and loss prevention plan or system has on the ability(s) of a given agency

D. Course Content:

Will include:

1. The evolution of security and loss control
2. Safety responsibilities
3. The loss-control survey
4. Countermeasures coordination
5. Technology and legal dimensions
6. Disaster planning and fire protection
7. Management perspectives and cases
