

122-05 CHEMICAL HYGIENE—PROCEDURE

1. PURPOSE

This Chemical Hygiene Plan is intended to help protect against the adverse health effects posed by hazardous chemicals and to ensure that exposures do not reach or exceed acceptable exposure limits. It is designed to provide a comprehensive approach to laboratory safety and to comply with all requirements of the current Occupational Safety and Health Administration (OSHA) Standards.

2. PROCEDURE

1. Scope

The Chemical Hygiene plan covers all personnel and students who could potentially come in contact with hazardous chemicals as a part of their job duties or laboratory studies.

2. Availability

The Chemical Hygiene Officer is responsible to maintain and/or update this plan, and make it available to all employees at any time requested. The Chemical Hygiene Plan is kept in the science laboratory preparation area or classrooms..
