Policy

Coconino Community College recognizes that there is a mutual benefit between an individual and the College to encourage innovation, experimentation, invention, and development of intellectual properties that meet the College's plans and mission. While the College strengthens its reputation for quality and effectiveness, the individual benefits by gaining new skills and knowledge. Coconino Community College is committed to encouraging and recognizing creative efforts by sharing any financial returns fairly with the creator as explained in this procedure.

The President or designee will establish appropriate controlling regulations which govern the use of the Intellectual Property created for the College and any associated revenues.
