Land Acknowledgement Statement
Joseph R. Smith, Chair, CCC District Governing Board

On behalf of Coconino Community College, we would like to express our gratitude and appreciation to the sacred land on which this educational institution resides. Sacred sites located within Coconino County include the San Francisco Peaks, Oak Creek Canyon, Sedona Red Rocks, the Colorado River, the Little Colorado River, the Colorado River Confluence, the Grand Canyon, and many more sites. This land has been inhabited by the Sinagua and Ancestral Pueblo for thousands of years. Currently, the Zuni, Apache, Yavapai, Hualapai, Havasupai, Paiute, Diné, Hopi, and many other Arizona tribal nations recognize this land as a significant spiritual place. This sacred land is enriched with indigenous history and culture that lives on to this day. We, as a community, with our CCC family and friends, are very fortunate to live, work, and share this unique location.

Faculty Speaker

Ki Sung

With over 30 years of experience in the computer industry, Ki Sung began in entry-level positions and advanced to the role of IT Operations Manager. In Flagstaff, Ki spent 15 years with the City of Flagstaff IT Department, starting as a Computer Technician, later becoming a Network Administrator, and ultimately serving as IT Manager. In 2002, he received the City Manager's Employee Excellence Award.

Following his tenure with the city, Ki served as IT Operations Manager for Coconino County, overseeing the Network and System teams for the second-largest county in the contiguous United States and briefly acting as Information Security Officer. Afterward, he spent five years with the Arizona Department of Emergency and Military Affairs at Camp Navajo, supporting the Arizona Army National Guard throughout Northern Arizona.

Ki joined Coconino Community College in 2017 as part-time CIS faculty and transitioned to a full-time role in 2024. He is passionate about teaching, mentoring, and preparing CIS students for success in the IT industry.

Sarah Benton

Growing up in a small town on eastern Long Island, NY, Sarah began her educational journey at her local community college. After finding her footing in higher education, she transferred to the Rochester Institute of Technology, where she earned her undergraduate degree and refined her academic focus on a campus shared with the National Technical Institute for the Deaf, home to more than 1,200 Deaf students.

Her work in substance abuse and mental health led her to pursue a Master's in Social Work at Boston College—one of only two programs in the U.S. at the time offering a specialization in working with the Deaf Community.

As the child of a Deaf parent, Sarah brings both a lifetime of lived experience and over 35 years of professional expertise as an American Sign Language/English interpreter to her work at the college. After teaching part-time, she transitioned to a full-time faculty role in 2011. Sarah is deeply committed to sharing her knowledge of ASL and the Deaf Community with her students.

Student Speakers

Bryan George

Associate of Arts in General Studies

Bryan George is a first-generation college student from Cedar Ridge, Arizona, and a 2023 graduate of Page High School. He became part of the CCC family through the Summer Bridge Program at the Page Campus, where he discovered a passion for supporting others by guiding new students and sharing his own college experience.

That passion naturally led him to take on leadership roles—becoming Vice President of the Page Indigenous Comet Club and a peer mentor for the Strengthening Indigenous Student Success Program. In these roles, he leads workshops, campus tours, and presentations to help fellow students feel welcomed and supported.

He plans to transfer to Northern Arizona University through the CCC2NAU program to study Applied Indigenous Studies. Despite a 100-mile round-trip commute to attend classes, Bryan remains dedicated to his education and hopes to become a professor of Navajo Language and Culture to serve and uplift his community. In his free time, he enjoys playing video games, watching professional sports, and listening to music.

Ibrahim Alshamsi

Associate of Science in General Studies

Ibrahim Alshamsi comes from a loving family of eight and credits his incredible parents for their unwavering support. He is graduating with an Associate of Science in General Studies and will be transferring to Northern Arizona University this fall to pursue a degree in Electrical Engineering.

Outside of school and work, Ibrahim enjoys working on his car and taking on house projects, which allow him to spend quality time with his family. Ibrahim currently serves as President of CCC's Phi Theta Kappa Honor Society chapter, Beta Gamma Chi, and is a proud recipient of CCC's Student Awards in both Math and Science. He attributes his success, both academically and in life, to the strong support of his family and the CCC community.

Reflecting on his time at CCC, Ibrahim is grateful for the friendships, mentorship, and opportunities that helped shape his journey and prepare him for what's next. He is committed to giving back to his community, using his experiences to foster a more trusting relationship between nurses and patients.

Valuing People

Coconino Community College values and respects the uniqueness of each individual and the contributions they make to our communities. We appreciate and welcome cultures, identities, beliefs, experiences, and all that makes us unique. CCC champions and takes action to build an inclusive work and learning environment. We are allies and advocates, navigating a respectful dialogue about our shared humanity.
